Topic 03: Apply the boundary

Foundations: Python, Cloud and a reproducible workspace

M00 Foundations Pre-Module | Topic 03

TOPIC 03

Apply the boundary

Use a concise exit prompt to check the learner's mental model.

Exit prompt

Hands-on Lab – Two minutes

Sketch a folder structure for a notebook that reads a CSV from S3 and trains a base-line model. Which files belong in Git, and which should be excluded?
