

upGrad | Enterprise Data Science on AWS

M10: Pre-read

Instructional content pending approval

M10 | Pre-read

Content Status

Caution – No Approved Lesson Material Supplied

This deck is intentionally a source-and-PDF scaffold. Replace it with reviewed learning objectives, AWS architecture patterns, code examples and references before learner delivery.

Author Handoff

- Start from the approved session plan and define observable learning objectives.
- Add session-local assets under `assets/`; keep reusable components in the shared theme.
- Compile with `make deck DECK=...` and review the resulting PDF before release.
