M09: Pre-read

Instructional content pending approval

Content status

Watch for – No approved lesson material was supplied

This deck is intentionally a source-and-PDF scaffold. Replace it with reviewed learning objectives, examples, exercises and references before learner delivery.

Author handoff

- Start from the approved session plan and define observable learning objectives.
- Add session-local assets under `assets/`; keep reusable components in the shared theme.
- Compile with `make deck DECK=...` and review the resulting PDF before release.
